

Here's a bit of an update:

Yesterday I(Todd) was running around the town of Abe going from hardware store to hardware store buying supplies for work at the campsite: water storage containers, generator, two burner camp stoves, toilets etc.

We were given permission to use a cabin that a MAF pilot had built some years ago. He had gotten permission from the Land Owner to use some land on the lake to build the cabin. I met with the Landowner two weeks ago to ask if I could use the property and he was generous to give us permission as well as use a house he built on the water near the cabin to hold camp.

All to say we are planning to hold our first camp the 27-29th of October. I have a lot of work to get the location ready to receive about 50 campers. I have to build outhouses , a kitchen area, some platforms where we can put up some tents, etc.

Pray the the relationship with Mr. Hubert (the Land owner) would remain favorable.

Pray that lives would be impacted as the students come to camp

Pray for Stefanus, Norius, Kimanus and me as we build and get things ready at the campsite (They return from the interior back to Sentani on Saturday)

Pray for Debbie and Esther (a local Papuan young lady) who are working on the Schedule for the camping event.

Many blessings and thanks for your prayers!

Todd and Debbie
